

Irrigated Land Use Reporting Form

Cuyama Basin Groundwater Sustainability Agency

The Cuyama Basin Groundwater Sustainability Agency (CBGSA) incorporates land use data from the California Department of Water Resources to update its water resource model. However, to ensure the most accurate land use data is included, the CBGSA requests landowners submit their actual irrigated land use data for the Water Year 2025 (October 1st through September 30th), and projected irrigated land use data for the subsequent October through December period using the below form. Please provide the requested information in the fields below and submit **by December 26, 2025**. If have you any questions, please contact Taylor Blakslee at (661) 477-3385, or via email at tblakslee@hgcpm.com.

I am either a residential/domestic water user or a non-irrigated water user, and this form does not apply

Landowners should submit a separate form for each APN (parcel)

If landowner would like to submit their data in an alternate format, please contact the CBGSA

Landowner, Well Information

- 1 Landowner Name _____
- 2 Company/Organization _____
- 3 APN/Parcel Number _____
- 4 Total Acreage _____
- 5 Well Name(s)/Number(s) _____

Land Use/Cropping Data (per APN/Parcel)

	Land Use (Irrigated, non-irrigated, fallowed, other)	Crop Type(s)	Cropped Acreage by Crop	Notes
Previous Water Year
